

IN THE SPECIFICATION:

A marked-up version of the following amended paragraph is attached hereto as Appendix A. Matter that has been deleted from the paragraph is indicated by brackets and matter that has been added to the paragraph is indicated by underlining.

Please amend the specification as follows:

On page 7, please replace the paragraph beginning "Methods and compositions for the treatment and prevention of graft rejection" with the following paragraph:

Q1 Methods and compositions for the treatment and prevention of graft rejection are described. The invention is based, in part, on newly discovered immunotherapeutic and immunoprophylactic treatment regimens for graft rejection. In contrast to other methods reported in the literature, the use of hsp's in accordance with the present invention is not dependent of administration of any particular target antigen of the rejection process.

IN THE CLAIMS:

A marked-up version of the claims, in which deleted matter is enclosed in brackets and added matter is underlined, is attached hereto as Appendix B.

~~Please amend the claims as follows:~~

Cancel claims 3, 4, 5, and 22-31 without prejudice.

Please amend claims 1, 6, 8, 13-18, and 20-21 to read as follows:

Q2
Sub
B1
1. (Amended) A method of preventing or treating rejection of a grafted cell, tissue, or organ in a mammal comprising administering to the mammal a composition comprising a purified complex consisting essentially of a heat shock protein non-covalently bound to a peptide, wherein the peptide is not an alloantigen of the grafted cells, tissue, or organ.

Q3
6. (Amended) The method of Claim 1, wherein the grafted cell, tissue, or organ is skin, liver, kidney, heart, bone marrow, pancreas, lung, cornea, cartilage, or a cell derived therefrom.
